## Monogram

Primary Logo

---

## Clear space

Clear space prevents type, imagery or other graphic elements from interfering with the legibility of the logo. No graphic elements should encroach the border around the logomark.

Use the grey circle as a measuring tool to help maintain clearance.

## Minimum Size

The logo should not appear smaller than 20 mm in height

## Logo Variations

The logo used on an application will often depend on the background and production method. When using the logo on a white background, use the full color version or one color logo.
